

# AASHISH K

---

## SUMMARY

Java developer with 5 plus years of industry experience at Infosys and Cognizant Technology Solutions. Recognized for automation, tool-building, and efficiency improvements across projects.

## PRIMARY SKILLS

Java, Spring Boot, Spring MVC, Spring Security, JWT, Spring Cloud (Eureka, Zuul, Feign, Ribbon, Hystrix), Hibernate, MySQL, Oracle, SQL, H2, Kafka, Git, Maven, JPA, REST APIs.

## EXPERIENCE

### Voluntary Career Break

NOV 2023 – PRESENT

- Took a planned sabbatical to focus on mental well-being, personal growth, skill enhancement and consider future prospects.
- Built a full-stack Blog Platform using Spring Boot (JWT-secured REST API) and React + Tailwind frontend.
  - Includes post creation, categories, tags, comments, likes, and search functionality.
  - Integrated Python-based microservice for AI-generated content assistance.
  - Added Docker support and CI/CD pipeline using GitHub Actions.
- Pursued Spring Framework Specialization course on Coursera, courses on Docker & Kubernetes and Apache Kafka on Udemy and the AWS Cloud Practitioner Essentials during the time.
- Developed a microservices-based eCommerce demo app with Product, Order, Inventory, Notification services using Kafka, Eureka, and API Gateway.
- Created LFC Tours — a CRUD app for managing LFC fan groups and events with React frontend and secured Spring Boot backend.
- Used AI tools to accelerate boilerplate code generation, testing, and documentation.
- Spring Boot, Spring MVC, H2 database, Spring cloud (Eureka, Feign, Zuul, Hystrix, Ribbon), Hibernate, Lombok, HTML, CSS, Bootstrap, Reactstrap, Javascript, Github, React, GIT, SQL, Kafka, Docker & Kubernetes, AWS essentials, Github Actions, Python, JWT, Tailwind CSS, Claude 3.5 Sonnet, GPT-4o.

### Cognizant Technology Solutions, Bengaluru – Associate – Projects

MARCH 2022 – OCT 2023

- Contributed to the implementation of a 'User Management App', an application used to manage Non-Person Accounts, Distribution Lists, Shared Drive Access, and Shared Mailboxes for users across the project and actively participated in testing its features, working in an agile set up.

- Aided the development of batch processing capability of the User Management App.
- Briefly worked on Zscaler, a global leader in zero trust, its configuration and troubleshooting alongside leading SMEs in the field.
- Java Core, SQL, PL/SQL, Tomcat 9, Oracle DB, Struts2, JDBC, Spring, Jira, JSP, Zscaler.

## **Infosys Limited, Bengaluru** – *Technology Analyst*

JULY 2018 – MARCH 2022

- Trained on Java Core, Python, Angular, Hibernate and Spring.
- Briefly worked on web scraping using BeautifulSoup, a Python library.
- Worked on enhancing java tools used in data migration activities in an agile setup.
- Developed a Java-based validation tool to automate the validation of data for drops after data migration processes, replacing manual efforts, increasing productivity, and significantly reducing man-hours.
- Built a tool which merged different image handling processes optimizing the overall process flow of data migration, automating the manual tasks involved.
- Java Core, SQL, Python, BeautifulSoup, Azure Devops, XSLT, Spring, Angular, JSP, HTML, CSS, Javascript.

## **EDUCATION**

### **RNS Institute of Technology, Bengaluru** – *B.E, CS (Aggregate-73.5)*

JULY 2014 – JULY 2018, BENGALURU

### **Jain College, VV Puram, Bengaluru** – *PCME (Aggregate-93.5)*

MARCH 2013 – March 2014, BENGALURU

### **Carmel School, Padmanabhanagar, Bengaluru** – *10th Standard ICSE (Aggregate-91.5)*

March 2012, BENGALURU

## **AWARDS**

- **RISE Award (Infosys)**: Recognized for team engagement and automation contributions.
- **Sapphire Cheers Award (Cognizant)**: For contribution to User Management App.
